

UNIVERSITÄT ZU LÜBECK  
STIFTUNGSUNIVERSITÄT  
SEIT 2015

The University of Lübeck is a modern university specializing in Medicine, Computer Science, Molecular Biology, Biomathematics and Medical Engineering. Internationally renowned research and high standards of academic tutoring characterize the profile of the university.

The Obleser lab in the Department of Psychology, University of Lübeck, is seeking to hire one

### **Postdoctoral Researcher**

starting by April 2019, for a period of 4 years.

Applicants are expected to hold a Masters/Diploma as well as PhD degree and a promising track record in cognitive neuroscience, psychology, audiology, or engineering; to exhibit prior experience with either human neuroscience methods (especially advanced EEG and/or fMRI analyses) or statistical modeling of rich data sets (e.g., latent growth modeling, structural equation modeling), and to share our broader interests in perception, attention, and cognitive neuroscience (see <http://obleserlab.com>). Candidates with a research interest in modelling causal inference are especially invited to apply.

Our lab offers methods teaching for the psychology BSc and MSc courses. Accordingly, we seek applicants with experience and/or interest in teaching undergraduates in basic methods of various aspects of research design and basic statistics.

Furthermore, the ideal candidate is able to work independently and self-organised yet enjoys working in our team and enjoys scientific communication and writing in general (the lab operates mostly in English). An at least basic command in the German language for teaching purposes will be a plus.

Payment will follow salary group E13 TV-L (full time), if conditions based on German Public service regulations are satisfied. A final job classification remains reserved.

The university aims to increase the proportion of female staff members. Therefore, female applicants will be preferred, all qualifications being equal.

The university advocates the employment of disabled persons. Hence, disabled applicants will be preferred, all qualifications being equal.

We do not use application photos and therefore please do not send any. We explicitly welcome applications of people with a migration background.

Applications and relevant materials (enclosing a cover letter of max. 2 pages that specifies your research interests and its relation to the Obleser lab; a Curriculum Vitae detailing your publication record, and teaching experience if any; two key publications; the contact details of two references) must be received no later than **December 31, 2018** as a single PDF to the e-mail address [bewerbung@uni-luebeck.de](mailto:bewerbung@uni-luebeck.de) quoting the reference number **1040/18** or by mail to

**Universität zu Lübeck – Die Präsidentin – Dezernat Personal  
Ratzeburger Allee 160, 23562 Lübeck**
