

The University of Lübeck is a modern university specializing in Medicine, Computer Science, Molecular Biology, Biomathematics and Medical Engineering. Internationally renowned research and high standards of academic tutoring characterize the profile of the university.

The Obleser lab in the Department of Psychology, University of Lübeck, is seeking to hire one

Research assistant – Doctoral candidate (male/female/diverse)

in part time (65%). The position is funded by the German Research Foundation (DFG) for a period of 3 years (Starting date: October 2019). The successful candidate will be supervised by Dr. rer. nat. Malte Wöstmann. The preparation of a doctoral dissertation is envisaged.

Applicants are expected to ...

- Hold a Masters/Diploma in any of the fields cognitive neuroscience, psychology, audiology, or engineering.
- Share our broader interests in neuroscience, and the neural dynamics of auditory attention in particular.
- Prior experience with human cognitive neuroscience methods (especially EEG and/or fMRI analyses) is preferable.
- Show high willingness to learn and to work independently.
- Be motivated to acquire electrophysiological data in humans and to analyse these using state-of-the art signal processing and statistics.

Payment will follow salary group E13 TV-L, if conditions based on German Public service regulations are satisfied. A final job classification remains reserved.

The University of Luebeck sees itself as a modern and cosmopolitan employer. We welcome your application regardless of your age, gender, cultural and social background, religion, belief, disability or sexual identity. We promote gender equality. Priority will be given to women who have equal aptitude, competence and professional performance. As an applicant with severe disabilities or a person of equal status, we will give you preferential consideration if you are appropriate qualified.

All informal enquiries are welcome and should be addressed to malte.woestmann@uni-luebeck.de.
